

Doddridge County School District has a vision of ensuring all students believe in themselves and their future. It is our duty to guarantee all students are taught necessary skills required to be successful adults regardless of the path they choose to travel.

Foundations

Doddridge County Schools is committed to providing all students with the opportunity to develop essential foundational skills that will prepare them for whatever path they choose to pursue when they graduate from Doddridge County Schools. Many of these foundational skills will be taught through Project Based Learning Experiences that will take place in our K-12 classrooms. Students will be faced with challenging, real-world situations where they can apply many of these foundational skills.

College and Career Ready

College today means much more than just pursuing a four-year degree at a university. Being “college-ready” means being prepared for any postsecondary education or training experience, including study at two- and four-year institutions leading to a postsecondary credential (i.e. a certificate, license, Associates or Bachelor’s degree). Being ready for college means that a high school graduate has the knowledge and skills necessary to qualify for and succeed in entry-level, credit-bearing college courses without the need for remedial coursework.

In today’s economy, a “career” is not just a job. A career provides a family-sustaining wage and pathways to advancement and requires postsecondary training or education. A job may be obtained with only a high school diploma, but offers no guarantee of advancement or mobility. Being ready for a career means that a high school graduate has the knowledge and skills needed to qualify for and succeed in the postsecondary job training and/or education necessary for their chosen career (i.e. community college, technical/vocational program, apprenticeship or significant on-the-job training).

Global Citizen

Global citizenship is the idea of all persons having rights and civic responsibilities that come with being a contributing member of the world around them. Doddridge County Schools strives to create experiences and opportunities for students to become socially responsible, while having an appreciation for diversity. Doddridge County Schools takes in pride in introducing students to being service-minded and making ethical decisions as they enter society as adults.

Life Ready

Doddridge County Schools recognizes and celebrates that all students are unique and their life journey’s will be different as well. It is our vision to ensure we provide students with experiences and opportunities throughout their time in Doddridge County Schools to develop necessary skills and character traits to enable them to pursue their own path.
